INTRODUCTION

Meals of many courses are neither practical nor popular with the modern hostess. For a company luncheon or supper it is not necessary to serve more than a hot dish, a salad, a biscuit or sandwich, a dessert and a beverage. A first course and a relish may be provided if desired.

SUNDAY NIGHT SUPPERS

The following menus were arranged especially as Sunday night suppers, but they are equally suitable for midday luncheons or high teas. Many of the dishes will be found desirable for afternoon teas or evening spreads, and for use in tea and lunch rooms, and for automobile picnics.

PRELIMINARY PREPARATIONS

Preparations for Sunday night suppers should be made on Saturday as far as possible. For a luncheon it is a help to have some things done the day before. For picnics and parties much must be done in advance. As an aid to the hostess we have listed after each menu what these preliminary preparations may be.

COOKING AT THE TABLE

Many of the hot dishes may be prepared in a chafing dish or on an electric grill. For these, much of the measuring may be done in advance, the ingredients being put in small dishes on a tray. Coffee and tea may be made at the table with electric appliances.

SANDWICHES AND BISCUITS

Sandwiches may be made and wrapped first in dry cheesecloth, then in damp cheesecloth, and placed in a covered crock some hours before a

meal. The hot biscuits may be replaced by rolls or bread and butter if desired.

## AUTOMOBILE PICNICS

For picnics the beverages and hot dishes may be prepared at home and carried in thermos food jars. The cold dishes may be packed in a small portable refrigerator. The biscuits, sandwiches, cakes, and cookies should be carefully wrapped in wax paper and packed in boxes. Ice creams may be taken in the freezer. Hot sandwiches and bacon may be cooked over the coals or on a portable oil or alcohol stove. In some menus it may be desirable to omit or modify a few of the dishes, if food is to be carried several miles.

## MARKET ORDERS

Supplies for use on Sunday evening should, of course, be purchased on Saturday. To prevent any mistakes in ordering we have listed under each menu the foodstuffs that will be required. Supplies that are usually kept on hand are not listed, as

- Baking powder
- Cayenne
- Cornstarch
- Bread flour
- Pastry flour
- Molasses
- Mustard
- Paprika
- Pepper
- Rock salt
- Table salt
- Granulated sugar
- Soda
- Spices, whole and ground
- Table sauce
- Vanilla
- Vinegar

## HOW TO BUY

Some things are listed in the market orders that many people always have on hand. This is for the benefit of those who do not prepare all their meals and have little space for seldom used supplies. As far as feasible the amounts of material in the market orders are such as could be purchased. They may differ somewhat from the amounts called for in the recipes, thus leaving some foodstuff on hand. In many cases it may be more economical to purchase in larger quantities than those given. In some cases smaller amounts are called for than can be purchased, as one-half can, or one-fourth cup, in case supplies on hand are adequate without purchasing more than required. Butter only is given in the market orders. In cooking, margarine, lard, and other shortenings may be used instead, if preferred.

## MEASUREMENTS

In all recipes measurements are made level. Measuring cups, divided into thirds and quarters, are used, and tea and table measuring spoons. Cups of dry material are filled to overflowing by putting the material into the cup with a tablespoon, and are then leveled off with a knife. Tea and tablespoons are filled heaping with dry material, and then leveled off with a knife. Flour should be sifted once before measuring.

## RECIPES AND MENUS

The recipes are planned to serve eight persons. Most of them may be divided for a smaller party.

The average cost of the menus is fifty cents per person. Some of the dishes may be made less expensive and rich by substituting milk for cream, and by other substitutions and omissions that will suggest themselves to the resourceful hostess. Many types of dishes are given. Many variations are possible.

In some menus a choice of dishes is suggested. A few recipes are given that are not called for in the menus. These are usually to show how to utilize in a different way something for which a recipe is given or to use in another meal some foodstuff left from a recipe.

These recipes and menus have all been tested at Miss Farmer's School of Cookery. The author wishes to express here her appreciation of the painstaking work of all the members of the staff of the school who have assisted in making this little book possible.

#### FRUIT CUP

Remove skin and seeds from

1/2 pound white grapes. If grapes are firm, boiling water may be poured over them and allowed to stand 1 minute, when skins will come off easily.

Pare

2 oranges, removing white part with the skin, and remove sections free from membrane.

Cut

4 slices canned pineapple in dice. Mix the fruit with  
1/3 cup sugar

1 tablespoon lemon juice  
1/2 cup orange juice  
1/2 cup syrup from canned pineapple, and

## HOT HAM SANDWICHES

Put

1 pound cooked ham through food chopper. Add  
4 tablespoons creamed butter,  
1 teaspoon mustard and  
1 teaspoon paprika, and mix well. Cut  
Bread in sixteen 1/4-inch slices, spread eight slices bread with the ham mixture, cover with remaining bread and press slices firmly together. Cut each sandwich in three strips. Beat  
2 eggs slightly and add  
2 cups milk. Dip sandwiches, one at a time, in this mixture, and saute in butter, cooking on one side until browned, and then turning and browning the other side. Serve very hot.

Other meat, or marmalade or jam may be used in sandwiches in place of ham.

[Illustration: HOT HAM SANDWICHES]

## GRAPE OR CURRANT JELLY

Wash and pick over

Fruit. Crush in kettle one layer at a time and boil, stirring frequently, until juice is extracted from pulp. Let drip through double piece of cheesecloth, rinsed in cold water, over night or till juice no longer drips. Do not squeeze. To

1 tablespoon juice add  
1 tablespoon alcohol; stir and let stand 10 minutes. If  
2/3 of the mixture is cloudy use  
2/3 cup sugar to each cup juice. If all is cloudy use equal parts sugar and juice. (This is called the Pectin Test.) Be sure that juice mixed with alcohol is discarded immediately. Measure remaining juice into kettle, bring to boiling point, add required amount of sugar and cook to 220 degrees F. or until mixture will show two distinct, firm drops when dripped from side of spoon, or when small amount will become firm when dropped on very cold saucer. Then skim and pour into sterilized glasses.

Second Extraction

Return fruit pulp to kettle, add barely enough cold water to cover it, bring slowly to boiling point, stirring to prevent burning on; cook 5 minutes, drain and finish as for first extraction, boiling 5 minutes

before adding the sugar.

### Third Extraction

Proceed as for second extraction. Oftentimes the juice from second and third extractions may be combined before being made up into jelly. By making three extractions the amount of jelly obtainable from a given amount of fruit may be almost doubled.

## TOMATO SALAD WITH CHEESE DRESSING

Cut

4 tomatoes in halves in such a way that they come apart in points. Arrange each half in a nest of Lettuce leaves. In the center of tomato pile Cream cheese forced through a coarse strainer. In center of cheese put a Few bits of green pepper finely chopped. Serve with cheese dressing.

[Illustration: TOMATO SALAD]

## CHEESE DRESSING

Mix

2 tablespoons mayonnaise dressing with  
2 tablespoons cream cheese. Add  
1/2 teaspoon salt  
1/2 teaspoon table sauce  
1/2 teaspoon paprika and add very slowly  
1/4 cup salad oil, beating with egg beater until very thick. Add slowly  
1 1/2 tablespoons vinegar. Keep in cool place till ready to serve.

Cream cheese with Roquefort flavor is desirable in both the above recipes, but the usual cottage or cream cheese may be used if preferred.

## COCOA ICE CREAM

Mix very thoroughly

1/2 cup dry powdered cocoa  
Few grains salt  
1 cup sugar and  
1 tablespoon cornstarch. Add slowly  
2 cups milk, scalded, and cook over boiling water 20 minutes, stirring until thickened and occasionally afterward. Pour over  
2 eggs well beaten, chill, and add  
2 cups cream beaten stiff  
1 teaspoon vanilla and  
1 cup syrup drained from canned raspberries or strawberries, and freeze.

If frozen in a vacuum freezer, put mixture in center can of freezer; cover, invert freezer, and fill outer compartment with finely crushed ice mixed with half the amount of rock salt. Open the freezer occasionally,

scrape cream from sides and mix well, using a long-bladed knife. If frozen in an ordinary freezer, it is not necessary to beat the cream. Put mixture in can of ice cream freezer, surround with three parts ice and one part salt.

Let mixture stand 5 minutes, then turn crank slowly until mixture is stiff. When frozen drain off ice water and repack, using four parts ice and one part salt.

## FIG MARGUERITES

Put in top of double boiler

7/8 cup sugar and

3 tablespoons water. Stir until sugar is dissolved as much as possible.

There will still be small sugar crystals remaining. Wash sugar crystals from inside of double boiler with pastry brush dipped in cold water. Add

1 egg white, unbeaten. Place over hot water and cook, beating constantly with egg beater for 7 to 12 minutes or until mixture will hold its shape.

Add

1 tablespoon marshmallow cream and

1/4 teaspoon vanilla, and fold over and over until again stiff enough to hold its shape. Add

1/3 cup (3) figs cut in small pieces and

1/3 cup nut meats cut in small pieces. Pile on

Small round crackers and bake at 375 degrees F. for 10 minutes or until delicately brown. This rule will cover 3 dozen small crackers. Should frosting be too soft to hold its shape after adding marshmallow cream, it may be again placed over hot water, and folded gently over and over, until it becomes slightly granular around the edges. Remove from hot water, and continue folding over gently until of the desired stiffness.

## MARSHMALLOW FROSTING

Use above mixture with or without figs and nuts as a cake filling or frosting. It need not be baked.

## CANDIED MINT LEAVES

Wipe

Fresh mint leaves, remove from stems and rub each leaf gently with the finger dipped in

Egg white slightly beaten. Mix

3 tablespoons granulated sugar with

3 drops oil of spearmint, and sift over each side of the mint leaves.

Lay close together on a cake rack covered with wax paper and leave in a warm but not a hot place until crisp and dry. Serve in

Tea with

Sliced lemon and

Loaf sugar.

## TEA

Half fill a perforated tea spoon or tea ball with Orange Pekoe, or other preferred tea. Place in cup, add fresh Boiling water, until cup is two-thirds full. Remove tea spoon as soon as tea is of the desired strength.

Two or three cups of tea can usually be made without emptying and refilling the tea spoon.

Hot water, bring to boiling point, place over boiling water or on back of range and let stand 60 minutes. Remove shells and cut eggs in eighths lengthwise. Remove skins and stems from

1/2 pound mushroom caps and cut in slices lengthwise.

Cover stems and skins with

1 1/2 cups cold water, heat slowly to boiling point, simmer gently 20 minutes and strain. Melt

1/3 cup butter, add

1/3 cup flour mixed with

3/4 teaspoon salt and

1/8 teaspoon pepper. When smooth add

Stock strained from mushroom skins, with enough

Top milk or thin cream to make 3 cups. Stir until sauce boils. Saute mushroom caps in

1 tablespoon butter for 3 minutes. Add to sauce with the

Hard cooked eggs. When thoroughly heated turn out on a platter and

arrange

Bacon curls over the top.

4 small cooked potatoes cut in pieces or

1 cup cooked macaroni or

1 small can asparagus cut in pieces may be used instead of mushrooms.

## BACON CURLS

Place thin strips of

Bacon on a board and with a broad-bladed knife press strips out as thin as possible. Roll each slice into a curl and fasten with a wooden toothpick. Cook until crisp and delicately brown in hot

Bacon fat deep enough to cover the curls of bacon.

Drain on brown paper and remove toothpicks.

## MARMALADE BISCUITS

Sift together

2 cups bread flour

5 teaspoons baking powder and

1 teaspoon salt. With tips of fingers work in

2 tablespoons shortening. Add

7/8 cup milk, stirring with a knife. Toss on a floured cloth or board and roll out 1/4 inch thick. Cut in oval shapes 6 inches long and 3 inches wide with round ends. Lay on tin sheet. Make 1/2-inch cuts 1 inch from and parallel with the ends. Put

1 teaspoon of orange marmalade in the center.

Bring one end of dough through hole in other end. Press edges together and bake in hot oven or at 450 degrees F. for 15 minutes. Pastry may be used instead of baking powder biscuit dough for these turnovers.

## QUICK ORANGE MARMALADE

Remove skins in quarters from

2 oranges and

1 lemon, close to the pulp. Break up pulp and remove seeds. Add

1/2 cup water and simmer in covered saucepan for 45 minutes. Boil rind from oranges and lemons with

4 cups water in covered saucepan for 20 minutes. Drain and discard water. With sharp-edged spoon scrape out and discard white part of skins, leaving only yellow rind. With sharp knife shred yellow rinds just as thin as possible in pieces about 1 inch long. Simmer shredded rinds again in

2 1/2 cups water in covered saucepan for 15 minutes.

Drain and discard water. Mix cooked pulp with rinds. Measure

2 cups of mixed rind and pulp, adding water if necessary to make up this amount. Add

3 1/2 cups sugar and mix well. Stir constantly and bring to vigorous boil over hot fire. Boil hard for 3 minutes, stirring constantly. Remove from fire, add

1 egg white, beaten stiff.

## BUTTERSCOTCH PARFAIT

Put in small saucepan

1 1/4 cups brown sugar

2 tablespoons butter and

1 1/2 cup water; stir until sugar is melted and boil without stirring to 238 degrees F. or until syrup forms a soft ball when tried in cold water. Pour slowly onto

3 egg yolks well beaten, and beat until cold and thick.

(This mixture may be made the day before and kept in a cool place, if desired.) Fold in

3 egg whites beaten stiff

1 teaspoon vanilla

1 1/2 cups heavy cream beaten stiff and

1/2 cup nut meats broken in pieces. Put in paper cases, sprinkle with nuts and place in can of ice cream freezer with waxed paper and cardboard between the layers. The finished cakes should be not more than three-fourths of an inch thick. Remove soft centers from cakes, taking them out from the top; fill cakes with

Cocoa Butter Cream, put cakes together in pairs with the filling inside, cover with

White Butter Cream and cover entire cake with thin

Coffee Frosting. Decorate with reserved cream forced through a very small pastry tube of paper or tin.

The butter cream may be omitted and cakes be merely frosted on top if preferred.

## BUTTER CREAM, COCOA AND WHITE

Work

1/3 cup washed or fresh sweet butter until very light and creamy, add

1 cup sifted confectioners' sugar and

1/2 teaspoon vanilla very gradually, and beat until very light.

Reserve 2 tablespoons mixture for decoration.

Divide remainder in two portions. To one portion add

1 tablespoon dry cocoa. Whip

4 tablespoons cream and add two-thirds of it to the white butter cream and fold remainder into that which contains the cocoa. Use as filling for cakes.

## COFFEE FROSTING

Mix

1/2 tablespoon corn syrup with

2 tablespoons strong hot coffee; add

1 1/4 cups sifted confectioners' sugar a tablespoon at a time, beating constantly and occasionally setting over hot water to keep it lukewarm.

Put in upper part of percolator coffee pot

1 cup finely ground coffee. Pour in

1.E.5. Do not copy, display, perform, distribute or redistribute this electronic work, or any part of this electronic work, without prominently displaying the sentence set forth in paragraph 1.E.1 with active links or immediate access to the full terms of the Project Gutenberg-tm License.

1.E.6. You may convert to and distribute this work in any binary, compressed, marked up, nonproprietary or proprietary form, including any word processing or hypertext form. However, if you provide access to or distribute copies of a Project Gutenberg-tm work in a format other than "Plain Vanilla ASCII" or other format used in the official version posted on the official Project Gutenberg-tm web site ([www.gutenberg.net](http://www.gutenberg.net)), you must, at no additional cost, fee or expense to the user, provide a copy, a means of exporting a copy, or a means of obtaining a copy upon request, of the work in its original "Plain Vanilla ASCII" or other form. Any alternate format must include the full Project Gutenberg-tm License as specified in paragraph 1.E.1.

1.E.7. Do not charge a fee for access to, viewing, displaying, performing, copying or distributing any Project Gutenberg-tm works unless you comply with paragraph 1.E.8 or 1.E.9.

1.E.8. You may charge a reasonable fee for copies of or providing access to or distributing Project Gutenberg-tm electronic works provided that

- You pay a royalty fee of 20% of the gross profits you derive from the use of Project Gutenberg-tm works calculated using the method you already use to calculate your applicable taxes. The fee is owed to the owner of the Project Gutenberg-tm trademark, but he has agreed to donate royalties under this paragraph to the Project Gutenberg Literary Archive Foundation. Royalty payments must be paid within 60 days following each date on which you prepare (or are legally required to prepare) your periodic tax returns. Royalty payments should be clearly marked as such and sent to the Project Gutenberg Literary Archive Foundation at the address specified in Section 4, "Information about donations to the Project Gutenberg Literary Archive Foundation."
- You provide a full refund of any money paid by a user who notifies you in writing (or by e-mail) within 30 days of receipt that s/he does not agree to the terms of the full Project Gutenberg-tm License. You must require such a user to return or destroy all copies of the works possessed in a physical medium and discontinue all use of and all access to other copies of Project Gutenberg-tm works.
- You provide, in accordance with paragraph 1.F.3, a full refund of any money paid for a work or a replacement copy, if a defect in the electronic work is discovered and reported to you within 90 days of receipt of the work.

- You comply with all other terms of this agreement for free distribution of Project Gutenberg-tm works.

1.E.9. If you wish to charge a fee or distribute a Project Gutenberg-tm electronic work or group of works on different terms than are set forth in this agreement, you must obtain permission in writing from both the Project Gutenberg Literary Archive Foundation and Michael Hart, the owner of the Project Gutenberg-tm trademark. Contact the Foundation as set forth in Section 3 below.

1.F.

1.F.1. Project Gutenberg volunteers and employees expend considerable effort to identify, do copyright research on, transcribe and proofread public domain works in creating the Project Gutenberg-tm collection. Despite these efforts, Project Gutenberg-tm electronic works, and the medium on which they may be stored, may contain "Defects," such as, but not limited to, incomplete, inaccurate or corrupt data, transcription errors, a copyright or other intellectual property infringement, a defective or damaged disk or other medium, a computer virus, or computer codes that damage or cannot be read by your equipment.

1.F.2. LIMITED WARRANTY, DISCLAIMER OF DAMAGES - Except for the "Right of Replacement or Refund" described in paragraph 1.F.3, the Project Gutenberg Literary Archive Foundation, the owner of the Project Gutenberg-tm trademark, and any other party distributing a Project Gutenberg-tm electronic work under this agreement, disclaim all liability to you for damages, costs and expenses, including legal fees. YOU AGREE THAT YOU HAVE NO REMEDIES FOR NEGLIGENCE, STRICT LIABILITY, BREACH OF WARRANTY OR BREACH OF CONTRACT EXCEPT THOSE PROVIDED IN PARAGRAPH F3. YOU AGREE THAT THE FOUNDATION, THE TRADEMARK OWNER, AND ANY DISTRIBUTOR UNDER THIS AGREEMENT WILL NOT BE LIABLE TO YOU FOR ACTUAL, DIRECT, INDIRECT, CONSEQUENTIAL, PUNITIVE OR INCIDENTAL DAMAGES EVEN IF YOU GIVE NOTICE OF THE POSSIBILITY OF SUCH DAMAGE.

1.F.3. LIMITED RIGHT OF REPLACEMENT OR REFUND - If you discover a defect in this electronic work within 90 days of receiving it, you can receive a refund of the money (if any) you paid for it by sending a written explanation to the person you received the work from. If you received the work on a physical medium, you must return the medium with your written explanation. The person or entity that provided you with the defective work may elect to provide a replacement copy in lieu of a refund. If you received the work electronically, the person or entity providing it to you may choose to give you a second opportunity to receive the work electronically in lieu of a refund. If the second copy is also defective, you may demand a refund in writing without further opportunities to fix the problem.

1.F.4. Except for the limited right of replacement or refund set forth in paragraph 1.F.3, this work is provided to you 'AS-IS,' WITH NO OTHER WARRANTIES OF ANY KIND, EXPRESS OR IMPLIED, INCLUDING BUT NOT LIMITED TO WARRANTIES OF MERCHANTABILITY OR FITNESS FOR ANY PURPOSE.

1.F.5. Some states do not allow disclaimers of certain implied warranties or the exclusion or limitation of certain types of damages.

If any disclaimer or limitation set forth in this agreement violates the law of the state applicable to this agreement, the agreement shall be interpreted to make the maximum disclaimer or limitation permitted by the applicable state law. The invalidity or unenforceability of any provision of this agreement shall not void the remaining provisions.

1.F.6. INDEMNITY - You agree to indemnify and hold the Foundation, the trademark owner, any agent or employee of the Foundation, anyone providing copies of Project Gutenberg-tm electronic works in accordance with this agreement, and any volunteers associated with the production, promotion and distribution of Project Gutenberg-tm electronic works, harmless from all liability, costs and expenses, including legal fees, that arise directly or indirectly from any of the following which you do or cause to occur: (a) distribution of this or any Project Gutenberg-tm work, (b) alteration, modification, or additions or deletions to any Project Gutenberg-tm work, and (c) any Defect you cause.

## Section 2. Information about the Mission of Project Gutenberg-tm

Project Gutenberg-tm is synonymous with the free distribution of electronic works in formats readable by the widest variety of computers including obsolete, old, middle-aged and new computers. It exists because of the efforts of hundreds of volunteers and donations from people in all walks of life.

Volunteers and financial support to provide volunteers with the assistance they need, is critical to reaching Project Gutenberg-tm's goals and ensuring that the Project Gutenberg-tm collection will remain freely available for generations to come. In 2001, the Project Gutenberg Literary Archive Foundation was created to provide a secure and permanent future for Project Gutenberg-tm and future generations. To learn more about the Project Gutenberg Literary Archive Foundation and how your efforts and donations can help, see Sections 3 and 4 and the Foundation web page at <http://www.pglaf.org>.

#### Section 4. Information about Donations to the Project Gutenberg Literary Archive Foundation

Project Gutenberg-tm depends upon and cannot survive without wide spread public support and donations to carry out its mission of increasing the number of public domain and licensed works that can be freely distributed in machine readable form accessible by the widest array of equipment including outdated equipment. Many small donations (\$1 to \$5,000) are particularly important to maintaining tax exempt status with the IRS.

The Foundation is committed to complying with the laws regulating charities and charitable donations in all 50 states of the United States. Compliance requirements are not uniform and it takes a considerable effort, much paperwork and many fees to meet and keep up with these requirements. We do not solicit donations in locations where we have not received written confirmation of compliance. To SEND DONATIONS or determine the status of compliance for any particular state visit <http://pglaf.org>

While we cannot and do not solicit contributions from states where we have not met the solicitation requirements, we know of no prohibition against accepting unsolicited donations from donors in such states who approach us with offers to donate.

International donations are gratefully accepted, but we cannot make any statements concerning tax treatment of donations received from outside the United States. U.S. laws alone swamp our small staff.

Please check the Project Gutenberg Web pages for current donation methods and addresses. Donations are accepted in a number of other ways including including checks, online payments and credit card donations. To donate, please visit: <http://pglaf.org/donate>

#### Section 5. General Information About Project Gutenberg-tm electronic works.

Professor Michael S. Hart is the originator of the Project Gutenberg-tm concept of a library of electronic works that could be freely shared with anyone. For thirty years, he produced and distributed Project Gutenberg-tm eBooks with only a loose network of volunteer support.

Project Gutenberg-tm eBooks are often created from several printed editions, all of which are confirmed as Public Domain in the U.S. unless a copyright notice is included. Thus, we do not necessarily keep eBooks in compliance with any particular paper edition.

Each eBook is in a subdirectory of the same number as the eBook's eBook number, often in several formats including plain vanilla ASCII, compressed (zipped), HTML and others.

Corrected EDITIONS of our eBooks replace the old file and take over the old filename and etext number. The replaced older file is renamed. VERSIONS based on separate sources are treated as new eBooks receiving new filenames and etext numbers.

Most people start at our Web site which has the main PG search facility:

<http://www.gutenberg.net>

This Web site includes information about Project Gutenberg-tm, including how to make donations to the Project Gutenberg Literary Archive Foundation, how to help produce our new eBooks, and how to subscribe to our email newsletter to hear about new eBooks.

EBooks posted prior to November 2003, with eBook numbers BELOW #10000, are filed in directories based on their release date. If you want to download any of these eBooks directly, rather than using the regular search system you may utilize the following addresses and just download by the etext year.

<http://www.gutenberg.net/etext06>

(Or /etext 05, 04, 03, 02, 01, 00, 99,  
98, 97, 96, 95, 94, 93, 92, 91 or 90)

EBooks posted since November 2003, with etext numbers OVER #10000, are filed in a different way. The year of a release date is no longer part of the directory path. The path is based on the etext number (which is identical to the filename). The path to the file is made up of single digits corresponding to all but the last digit in the filename. For example an eBook of filename 10234 would be found at:

<http://www.gutenberg.net/1/0/2/3/10234>

or filename 24689 would be found at:

<http://www.gutenberg.net/2/4/6/8/24689>
